

eCLIPS

After identifying their interests, personal qualities, and what they find important in a job, students then need to conduct their own research on opportunities available. Below we have provided information on a resource that students can access to help them with this.

eCLIPS is an online careers resource which has accurate, up-to-date careers and labour market information on over 1,000 jobs and careers. With clear and impartial descriptions of jobs, entry requirements and training options, including live-streamed information from LMI for All, eCLIPS provides students with all the information they need to make informed careers decisions. It caters for all abilities and stages with information ranging from basic to in-depth descriptions with links for further exploration.

There's help for students looking for career ideas, with leaflets providing a broad overview of career areas, careers linked to school subjects and an interactive career matching tool. In addition, eCLIPS provides a wealth of advice to help young people choose study and employment options, and prepare for the world of work.

Click on Link below, you need to ask your Careers Lead or Careers Adviser for the login.

UNIFROG

SPA also have another careers platform which will provide students with all of the above and more, it is called Unifrog. Each individual student has their own login so they can access from school or home.
