INTRODUCTION

Closed Circuit Television Systems (CCTVS) are installed in St Paul's Academy. New CCTV systems will be introduced in consultation with staff, the SLT (Senior Leadership Team) and Governing Body. Where systems are already in operation, their operation will be reviewed regularly in consultation with staff, the SLT and Governing Body.

1. PURPOSE OF POLICY

*"The purpose of this policy is to regulate the use of Closed Circuit Television and its associated technology in the monitoring of both the internal and external environment of the premises under the remit of **St Paul's Academy.**"*

CCTV systems are installed (both internally and externally) in premises for the purpose of enhancing security of the building and its associated equipment as well as creating a mindfulness among the occupants, at any one time, that a surveillance security system is in operation within and in the external environment of the premises during both the daylight and night hours each day. CCTV surveillance at the Academy is intended for the purposes of:

- protecting the Academy buildings and Academy assets, both during and after Academy hours;
- promoting the health and safety of staff, pupils and visitors;
- preventing bullying and informing decisions following serious incidents;
- reducing the incidence of crime and anti-social behaviour (including theft and vandalism);
- supporting the Police in a bid to deter and detect crime;
- Ensuring that the Academy rules are respected so that the Academy can be properly managed.
- Supporting safeguarding procedures regarding entry of visitors to the site.

2. SCOPE

This policy relates directly to the location and use of CCTV and the monitoring, recording and subsequent use of such recorded material. Where classes and activities are carried out in rented premises, St Paul's Academy will ensure that CCTV systems, where installed, are operated only in a way that is compatible with the provisions of this policy.

3. POLICY

St Paul's Academy as the corporate body has a statutory responsibility for the protection of its property & equipment as well as providing a sense of security to its employees, pupils and invitees to its premises.

St Paul's Academy owes a duty of care under the provisions of Safety, Health and Welfare at Work Act 2005 and associated legislation and utilises CCTV systems and their associated monitoring and recording equipment as an added mode of security and surveillance for the purpose of enhancing the quality of life of the Academy community by integrating the best practices governing the public and private surveillance of its premises.

The use of the CCTV system will be conducted in a professional, ethical and legal manner and any diversion of the use of CCTV security technologies for other purposes is prohibited by this policy e.g. CCTV will not be used for monitoring employee performance.

Information obtained through the CCTV system may only be released when authorised by the Principal or those whom she delegates this duty to in her absence. Any requests for CCTV recordings/images from the Metropolitan Police will be fully recorded and legal advice will be sought if any such request is made. (See "Access" below). If a law enforcement authority, such as the metropolitan Police, is seeking a recording for a specific investigation, the Metropolitan Police may require a warrant and accordingly any such request made by the Metropolitan Police should be requested in writing and the Academy will immediately seek legal advice.

CCTV monitoring of public areas for security purposes will be conducted in a manner consistent with all existing policies adopted by the Academy, including Equality & Diversity Policy, Dignity at Work Policy, Codes of Practice for dealing with complaints of Bullying & Harassment and Sexual Harassment and other relevant policies, including the provisions set down in equality and other educational and related legislation.

This policy prohibits monitoring based on the characteristics and classifications contained in equality and other related legislation e.g. race, gender, sexual orientation, national origin, disability etc.

Digital format monitoring of public areas for security purposes within Academy premises is limited to uses that do not violate the individual's reasonable expectation of privacy.

Information obtained in violation of this policy may not be used in a disciplinary proceeding against an employee of the Academy or a student attending one of its Academy/centres.

All CCTV systems and associated equipment will be required to be compliant with this policy following its adoption by St Paul's Academy. Recognisable images captured by CCTV systems are "personal data." They are therefore subject to the provisions of the Data Protection Act 2018 and the UK GDPR.

4. JUSTIFICATION FOR USE OF CCTV

Chapter 2 (Section 88) of the Data Protection Act 2018 requires that data is "adequate, relevant and not excessive" for the purpose for which it is processed. This means St Paul's Academy needs to be able to justify the obtaining and use of personal data by means of a CCTV system. The use of CCTV to control the perimeter of the Academy buildings for security purposes has been deemed to be justified by the SLT and Governing Body. The system is intended to capture images of intruders or of individuals damaging property or removing goods without authorisation.

CCTV systems will not be used to monitor normal teacher/student classroom activity in the Academy.

In other areas of the Academy where CCTV has been installed, e.g. hallways, stairwells, locker areas, the Principal has demonstrated that there is a proven risk to security and/or health & safety and that the installation of CCTV is proportionate in addressing such issues that have arisen prior to the installation of the system.

5. LOCATION OF CAMERAS

The location of cameras is a key consideration. Use of CCTV to monitor areas where individuals would have a reasonable expectation of privacy would be difficult to justify. St Paul's Academy has endeavoured to select locations for the installation of CCTV cameras which are least intrusive to protect the privacy of individuals. Cameras placed so as to record external areas are positioned in such a way as to prevent or minimise recording of passers-by or of another person's private property.

CCTV Digital format Monitoring and Recording of Public Areas in St Pauls Academy may include the following:

- ***Protection of the Academy buildings and property:*** The building's perimeter, entrances and exits, lobbies and corridors, special storage areas, cashier locations, receiving areas for goods/services
- ***Monitoring of Access Control Systems:*** Monitor and record restricted access areas at entrances to buildings and other areas
- ***Verification of Security Alarms:*** Intrusion alarms, exit door controls, external alarms
- ***Digital format Patrol of Public Areas:*** Parking areas, Main entrance/exit gates, Traffic Control
- ***Criminal Investigations: (carried out by the Metropolitan Police):*** Robbery, burglary and theft surveillance
- **Safeguarding**

6. COVERT SURVEILLANCE

St Paul's Academy will not engage in covert surveillance.

Where the Metropolitan Police requests to carry out covert surveillance on Academy premises, such covert surveillance may require the consent of a judge. Accordingly, any such request made by the Metropolitan Police will be requested in writing and the Academy will seek legal advice.

7. NOTIFICATION – SIGNAGE

The Principal will provide a copy of this CCTV Policy on request to staff, pupils, parents and visitors to the Academy. This policy describes the purpose and location of CCTV monitoring, a contact number for those wishing to discuss CCTV monitoring and guidelines for its use. The location of CCTV cameras will also be indicated to the SLT.

Adequate signage will be placed at each location in which a CCTV camera(s) is sited to indicate that CCTV is in operation. Adequate signage will also be prominently displayed at the entrance to the Academy property. Signage shall include the name and contact details of the data controller as well as the specific purpose(s) for which the CCTV camera is in place in each location.

WARNING

CCTV cameras in operation

Images are being monitored and recorded for the purpose of crime-prevention, the prevention of anti-social behaviour, the prevention of bullying, for the safety of our staff and pupils and for the protection of **St Paul's Academy and its property. This system will be in operation 24 hours a day, every day. These images may be passed to the Police.**

This scheme is controlled by **St Paul's Academy**

For more information contact the Academy reception on **0208 311 3868**

Appropriate locations for signage will include:

- at entrances to premises i.e. external doors, Academy gates
- reception area
- at or close to each internal camera

8. STORAGE & RETENTION

Chapter 2 (Section 90) of the Data Protection Act 2018 states that data "shall not be kept for longer than is necessary for" the purposes for which it is processed. A data controller needs to be able to justify this retention period. For a normal CCTV security system, it would be difficult to justify retention beyond a month (28 days), except where the images identify an issue – such as a break-in or theft and those particular images/recordings are retained specifically in the context of an investigation/prosecution of that issue.

Accordingly, the images captured by the CCTV system will be retained for a maximum of 28 days, except where the image identifies an issue and is retained specifically in the context of an investigation/prosecution of that issue.

The images/recordings will be stored in a secure environment with a log of access kept. Access will be restricted to authorised personnel. Supervising the access and maintenance of the CCTV System is the responsibility of the Principal. The Principal may delegate the administration of the CCTV System to another staff member. In certain circumstances, the recordings may also be viewed by other individuals in order to achieve the objectives set out above (such individuals may include the Metropolitan Police, the Vice Principal, Head of Inclusion ICT Technician and the relevant Year Head. representatives of the Department of Education and Skills, representatives of the HSE and/or the parent of a recorded student). When CCTV recordings are being viewed, access will be limited to authorised individuals on a need-to-know basis.

DVDs/Digital storage will be stored in a secure environment with a log of access to the data kept. Access will be restricted to authorised personnel. Similar measures will be employed when using disk storage, with automatic logs of access to the images created.

9. ACCESS

DVDs/Digital Storage storing the recorded footage and the monitoring equipment will be securely stored in a restricted area. Unauthorised access to that area will not be permitted at any time. The area will be locked when not occupied by authorised personnel. A log of access to tapes/images will be maintained.

Access to the CCTV system and stored images will be restricted to authorised personnel only i.e. Principal of the Academy , Premises Manager and IT Technician, Head of Inclusion and Associate Vice Principal and Safeguarding Officer.

In relevant circumstances, CCTV footage may be accessed:

- By the Metropolitan Police where St Paul's Academy (or its agents) are required by law to make a report regarding the commission of a suspected crime; or
- Following a request by the metropolitan police when a crime or suspected crime has taken place and/or when it is suspected that illegal/anti-social behaviour is taking place on St Paul's Academy property, or
- To the HSE and/or any other statutory body charged with child safeguarding; or
- To assist the Principal in establishing facts in cases of unacceptable student behaviour, in which case, the parents/guardians will be informed; or
- To data subjects (or their legal representatives), pursuant to an access request where the time, date and location of the recordings is furnished to St Paul's Academy or
- To individuals (or their legal representatives) subject to a court order.
- To the Academy insurance company where the insurance company requires evidence in order to pursue a claim for damage done to the insured property.

Requests by Metropolitan Police: Information obtained through digital format monitoring will only be released when authorised by the Headteacher following consultation with the Chairperson of the Board of Governors. If the Metropolitan Police request CCTV images for a specific investigation, the Metropolitan Police may require a warrant and accordingly any such request made by the metropolitan Police should be made in writing and the Academy should immediately seek legal advice.

Access requests: On written request, any person whose image has been recorded has a right to be given a copy of the information recorded which relates to them, provided always that such

an image/recording exists i.e. has not been deleted and provided also that an exemption/prohibition does not apply to the release. Where the image/recording identifies another individual, those images may only be released where they can be redacted/anonymised so that the other person is not identified or identifiable. To exercise their right of access, a data subject must make an application in writing to the Academy Principal. The Academy may charge up to £5.64 for responding to such a request and must respond **within 40 days**.

Access requests can be made to the following: via the DPO for St Paul's Academy
gdpr@accordio.co.uk

A person should provide all the necessary information to assist the DPO for St Paul's Academy in locating the CCTV recorded data, such as the date, time and location of the recording. If the image is of such poor quality as not to clearly identify an individual, that image may not be considered to be personal data and may not be handed over by the Academy.

In giving a person a copy of their data, the Academy may provide a still/series of still pictures, a tape or a disk with relevant images. However, other images of other individuals will be obscured before the data is released.

10. RESPONSIBILITIES

The Principal will:

- Ensure that the use of CCTV systems is implemented in accordance with the policy set down by St Paul's Academy
- Oversee and co-ordinate the use of CCTV monitoring for safety and security purposes within St Paul's Academy
- Ensure that all existing CCTV monitoring systems will be evaluated for compliance with this policy
- Ensure that the CCTV monitoring at St Paul's Academy is consistent with the highest standards and protections
- Review camera locations and be responsible for the release of any information or recorded CCTV materials stored in compliance with this policy
- Maintain a record of access (e.g. an access log) to or the release of tapes or any material recorded or stored in the system
- Ensure that monitoring recorded tapes are not duplicated for release
- Ensure that the perimeter of view from fixed location cameras conforms to this policy both internally and externally
- Approve the location of temporary cameras to be used during special events that have particular security requirements and ensure their withdrawal following such events. *NOTE:*

[Temporary cameras do not include mobile video equipment or hidden surveillance cameras used for authorised criminal investigations by the Metropolitan Police].

- Give consideration to both pupils and staff feedback/complaints regarding possible invasion of privacy or confidentiality due to the location of a particular CCTV camera or associated equipment
- Ensure that all areas being monitored are not in breach of an enhanced expectation of the privacy of individuals within the Academy and be mindful that no such infringement is likely to take place
- Co-operate with the Health & Safety Officer of St Paul's Academy in reporting on the CCTV system in operation in the Academy
- Ensure that external cameras are non-intrusive in terms of their positions and views of neighbouring residential housing and comply with the principle of "Reasonable Expectation of Privacy"
- Ensure that monitoring tapes are stored in a secure place with access by authorised personnel only
- Ensure that images recorded on tapes/DVDs/digital recordings are stored for a period not longer than 28 days and are then erased unless required as part of a criminal investigation or court proceedings (criminal or civil) or other bona fide use as approved by the Principal or Chairperson of the Governing Body
- Ensure that when a zoom facility on a camera is being used, there is a second person present with the operator of the camera to guarantee that there is no unwarranted invasion of privacy
- Ensure that camera control is solely to monitor suspicious behaviour, criminal damage etc. and not to monitor individual characteristics
- Ensure that camera control is not infringing an individual's reasonable expectation of privacy in public areas
- Ensure that where the Metropolitan Police request to set up mobile video equipment for criminal investigations, legal advice has been obtained and such activities have the approval of the Principal or Chairperson of the Governing Body.

11. SECURITY COMPANIES

The Academy CCTV system is supported/controlled by a security company contracted by the Academy. The following applies:

The Academy has **a written contract with the security company in place** which details the areas to be monitored, how long data is to be stored, what the security company may do with the data, what security standards should be in place and what verification procedures apply. The written contract also states that the security company will give the Academy all reasonable assistance to deal with any subject access request made under section 4 Data Protection Acts 1988 and 2003 which may be received by the Academy within the statutory time-frame (generally 40 days).

Security companies that place and operate cameras on behalf of clients are considered to be "Data Processors." As data processors, they operate under the instruction of data controllers (their clients). Sections 105-107 of the Data Protection Act 2018 place a number of obligations on data processors. These include having appropriate security measures in place to prevent

unauthorised access to, or unauthorised alteration, disclosure or destruction of, the data, in particular where the processing involves the transmission of data over a network and against all unlawful forms of processing. This obligation can be met by having appropriate access controls to image storage or having robust encryption where remote access to live recording is permitted. Staff of the security company have been made aware of their obligations relating to the security of data.

12. IMPLEMENTATION & REVIEW

The policy will be reviewed and evaluated on a regular basis. On-going review and evaluation will take cognisance of changing information or guidelines (e.g. from the Information Commissioner, Metropolitan Police, Department of Education and Skills, national management bodies, legislation and feedback from parents/guardians, pupils, staff and others).

The date from which the policy will apply is the date of adoption by the Governing Body. Implementation of the policy will be monitored by the Principal of the Academy.

APPENDIX 1 - DEFINITIONS

Definitions of words/phrases used in relation to the protection of personal data and referred to in the text of the policy;

CCTV – Closed-circuit television is the use of digital format cameras to transmit a signal to a specific place on a limited set of monitors. The images may then be recorded on DVD or other digital recording mechanism.

The Data Protection Acts – The Data Protection Acts 1998, 2003 and GDPR 2018 confer rights on individuals as well as responsibilities on those persons handling, processing, managing and controlling personal data. All Academy staff must comply with the provisions of the Data Protection Acts when collecting and storing personal information. This applies to personal information relating both to employees of the organisation and individuals who interact with the organisation

Data - information in a form that can be processed. It includes automated or electronic data (any information on computer or information recorded with the intention of putting it on computer) and manual data (information that is recorded as part of a relevant filing system or with the intention that it should form part of a relevant filing system).

Personal Data – Data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the data controller.

Access Request – this is where a person makes a request to the organisation for the disclosure of their personal data under Section 3 and/or section 4 of the Data Protection Acts.

Data Processing - performing any operation or set of operations on data, including:

- Obtaining, recording or keeping the data,
- Collecting, organising, storing, altering or adapting the data,
- Retrieving, consulting or using the data,
- Disclosing the data by transmitting, disseminating or otherwise making it available,
- Aligning, combining, blocking, erasing or destroying the data.

Data Subject – an individual who is the subject of personal data.

Data Controller - a person who (either alone or with others) controls the contents and use of personal data.

Data Processor - a person who processes personal information on behalf of a data controller, but does not include an employee of a data controller who processes such data in the course of their employment, for example, this might mean an employee of an organisation to which the data controller out-sources work. The Data Protection Acts place responsibilities on such entities in relation to their processing of the data.

APPENDIX 2 - PRIVACY IMPACT ASSESSMENT

Before an Academy installs a new CCTV system, it is recommended that a documented privacy impact assessment is carried out. An Academy which properly conducts such an assessment is less likely to introduce a system that contravenes the provisions of the Data Protection Acts 1988, 2003 and GDPR 2018. This is an important procedure to adopt as a contravention may result in action being taken against an Academy by the Office of the Data Protection Commissioner, or may expose an Academy to a claim for damages from a student.

Some of the points that might be included in a Privacy Impact Assessment are:

- What is the Academy's purpose for using CCTV images? What are the issues/problems it is meant to address?
- Is the system necessary to address a pressing need, such as staff and student safety or crime prevention?
- Are the CCTV cameras intended to operate on the outside of the premises only?
- Is it justified under the circumstances?
- Is it proportionate to the problem it is designed to deal with?
- Is it intended that CCTV cameras will operate inside of the building?
- Are internal CCTV cameras justified under the circumstances?
- Are internal CCTV cameras proportionate to the problem they are designed to deal with?
- What are the benefits to be gained from its use?
- Can CCTV systems realistically deliver these benefits? Can less privacy-intrusive solutions, such as improved lighting, achieve the same objectives?
- Does the Academy need images of identifiable individuals, or could the system use other images which are not capable of identifying the individual?
- Will the system being considered deliver the desired benefits now and remain suitable in the future?
- What future demands may arise for wider use of images and how will they be addressed?
- Is the Academy, the data controller for the entire CCTV system (bearing in mind that some Academies under the PPP are managed for operational purposes by management companies, in which case specific legal advice may need to be sought)?
- Where a management company is in place, is the Academy satisfied that it complies with the Data Protection Acts with regard to the processing of images of staff, pupils and visitors to your Academy captured on any CCTV systems under its management?
- What are the views of those who will be under CCTV surveillance?
- What could be done to minimise intrusion for those whose images may be captured, particularly if specific concerns have been expressed?
- How have staff, pupils and visitors been assured by the Academy that they will not be monitored and that the CCTV system will be used only for the stated purposes?

- Does the Academy's policy on the use of CCTV make it clear that staff (teaching and non-teaching) will not be monitored for performance or conduct purposes?
- Have the views of staff & pupils regarding the location of cameras been taken into account?
- Can the location of each internal camera be justified in accordance with the overall purpose for the use of the CCTV system?
- Has appropriate signage been erected at the location of each internal camera indicating that recording is taking place and outlining the purpose of such recording?
- Who will have access to the system and recordings/images?
- What security measures are in place to protect the CCTV system and recordings/images?
- Are those who will have authorised access to the system and recordings/images clear about their responsibilities?
- Are the camera monitors kept out of view of staff, pupils and visitors and is access to the camera monitors restricted to a limited number of staff on a 'need to know' basis?
- Is the room(s) which houses the camera monitors and the CCTV system securely locked when unattended?
- Does the Academy have a procedure in place to ensure that recordings/images are erased or deleted as soon as the retention period (28 days) has expired?
- Does the Academy have a procedure in place for handling requests for access to recordings/images – Refer to FOIA Policy POL_030
- Will appropriate notices be in place to ensure that individuals know that they are being monitored?
- Does the Academy have a data protection policy? Has it been updated to take account of the introduction of a CCTV system?
- Does the Academy have a procedure in place to handle access requests seeking a copy of images recorded by the CCTV system (within the statutory timeframe of forty days)?
- Has the right of access been communicated to staff, pupils and visitors?
- Has the Academy communicated its policy on the use of CCTV to staff, pupils and visitors and how has this been done?
- How are new pupils and new staff informed of the Academy's policy on the use of CCTV?
