Examination Results – Summer 2017

St Paul's Academy are pleased to report on the successful and well deserved examination results of our students.

This is the first year the Reformed GCSE specifications for Mathematics and English have been assessed. All schools across the UK have experienced the implementation of teaching the more rigorous and challenging content of these Reformed GCSEs which have a higher threshold of achievement. We are delighted to announce that 76.1% of students achieved a 4 or above in Mathematics, 71.7% in English Literature and 70% in English Language. This means that we can report that 68% of our students achieved the expected 4 and above in English and Mathematics. Early indications show that these results are significantly above the national average. These results will also provide us with the confidence to successfully embed the other Reformed GCSE courses in September and will enable us to build on the proven success of accurately tracking pupil progress.

There are many curriculum areas that have achieved amazing results. 100% of students who sat the ICT qualification in Year 11 received a Pass, Merit, Distinction or Distinction*. We are also delighted to report 100% A* – C results in Physics and Biology, with 95.2% in Chemistry. In our first year of introducing Statistics, a most creditable 72% of students received A* – C grades. Religious Studies and History have produced yet another set of excellent results, outperforming their national average.

Such high quality results are testament to the dedication of our staff to the students at St. Paul's Academy. One of the outstanding strengths of our school is the aspirational and hardworking ethos that is promoted by staff, embraced by students and supported by families. The opportunities to attend holiday and Saturday booster sessions and to sit Walking Talking Mocks have been of enormous benefit. The exam season this year was one of the best on school record in terms of preparation from staff and in terms of student confidence. Our students' motivation and self-esteem have been boosted throughout the year, not only in curriculum areas but by the Inclusion Learning Zone, the Raising Standards team and pastoral staff in preparing them not only for the exams but for their Post - 16 pathways.

We continue to value our belief in the merits of early entry qualifications and advocate students sitting exams early when appropriate and where possible which is borne out by a fantastic 100% of the Year 10 cohort who sat their Mathematics achieving a 4 or above. The picture was similar in PE where 97% of students achieved a C or above. 68% of students achieved a 4 or above in English Language, in line with the Year 11 result which is significantly above national average. This provides the majority of the year group the opportunity in English to focus solely on their Literature paper. As we further embed the Reformed GCSE course, we can forecast excellent results in this subject next year. In Mathematics, every single early entry student will now be able to prepare for a further qualification in Mathematics, which is a great opportunity for them especially in preparing for possible further study in their Post -16 pathway.

The staff of St. Paul's Academy continue to strive to do their very best for all students, regardless of their ability and in all aspects of the school community. The collegiality of staff is another outstanding strength of the school and the hard work and dedication of both staff and students alike is to be celebrated and commended.

We are delighted with the examination results of our students and offer them our heartfelt congratulations on all that they have achieved in their five years at St. Paul's and wish them every possible success as they embark on the next stage of their education.

Very well done Class of 2017.
