

A large blue speech bubble graphic with a white outline, pointing downwards. The text is centered within the bubble. The background features faint, overlapping circular lines in light gray and white.

# Home Learning: Years 7&8

## Taking charge of your learning

- With a term left of 2019/2020 school year, it's vital that we all work together to make this time count even when you aren't physically at school
- You will have access to high quality tasks and resources so that you can continue to access the curriculum.
- You will have a structure to your day when you are away from school.
- Your learning is valued and we want you and your families to have access to learning resources and materials.

## How will it work?

- You and your families will be able to see the work you have been set via a document on the **school website**
- It will have work for all your different subjects and you should complete work each day for the subjects you would normally have on that day
- You will be asked to produce pieces that you will submit upon their return to school. It could be a project, case study or extended essay for example.
- You can also send work to your teachers by your LGFL email. You could type it or photograph it so you can stay in touch by email on your phone/iPad/laptop or computer

## How will it work?

- You will also want to keep in touch with your form tutor and you can do this by LGFL email
- You will receive the normal bronze, silver and gold rewards on Behaviour Watch for work you submit or for your acts of kindness and new skills you may have learned in the home. Keep your teachers and form tutors updated and they will log these for you
- You will also be given ideas for other ways you can keep learning at home (websites, TV programmes, tasks around the home, trying new things)
- The work will be updated every 2 weeks so keep checking the website

## What else?

- You need to ensure you can get onto Doodle and your school LGFL email. Your form tutor will help you with this
- Think about what else you can do at home to support your mental health and physical wellbeing
- Discuss with your form tutor:
- Exercise
- Sleep patterns
- Helping at home
- Who to speak to
- How to maintain contact with friends and loved ones
- How to stay healthy
- What to read, what to watch (and what to limit!)
